Course Description

You are an innovator in study, work and life. This course will broaden and strengthen your innovation effectiveness. You will discover how technology, society, governments, and global trends drive change in the future of work over the span of your career. You will gain a holistic view of innovation - of self, others, and the task. Understand how bringing people and project together in innovation ecosystems brings new ideas to life, strategically delivering an innovation's true value into the hands of adopters.

Your course is richly illustrated with fast paced interactive learning activities and topics. Concepts will be brought to life through stories from alumni students, STEM industry leaders both locally and international. The engaging workshops, serious games and
